New York May 24th 1837

Dear Sir,

I have just received your note of the 21st. - I will be here on Friday morning to meet Mr Lewis Laws. -

What is the entire cost of such a hoisting apparatus as you have, including machinery, belting, platform, guides, cockpit? - And what is the heaviest load we will be required to hoist at the New York Assay Office? - I have seen a hoisting apparatus at a sugar refinery here, which I very much like, the cost of which, complete, would be about $1.000, and is capable of raising five tons.

The masons have nearly completed the deposit premises. - We will be holding to see you on Monday

In haste

Yours very truly

Geo. W. Colburn
